

## Welcome

Welcome to our late edition of our **Newsletter** where we endure with the aim to keep you informed about us along with our added services and our focus on building relationships with our Customers. Also in the edition, we highlight seasonal products for this month.

We hope you enjoy this edition and if we can be of any assistance, please feel free to call or email us.

## What's New:

- We would like to inform you that the Air Cargo operations at the Hamad international Airport (HIA) have improved over the past few weeks. However, we are still experiencing some challenges like the products not being stored properly on arrival, time delays in clearance and product spoilage due to improper handling. We are monitoring the operations at the Airport closely with the aim of minimizing the impact on our customers as much as possible and strive to provide the best quality product at the best value possible.
- World Fruits Centre is continuing replacing its old fleet with new trucks that are equipped with the latest cooling technologies to assure our clients reliable and efficient service. Up to date, we replaced four trucks and aim to replace additional 4 vehicles by the end of this year.

## Products of the Month

- Watermelons – Jordan
- Sweet Melons – Jordan
- Peaches and Apricots – Middle East
- Dates – US, Saudi Arabia and Tunisia
- Red and Green Apples – Italy
