PRODUCTS OF THE MONTH

Ripe Mango from Holland: Selected Sourced from Peru, Brazil, Burkina Faso, Senegal and Dominican Republic. The ripe flesh of the mango is soft and juicy, pale orange in colour, and has a texture ranging from fibrous to almost the consistency of butter. The flesh tastes fresh and sweet and emits a sweet fragrance.

Tovano Dates Holland: Special selection of dates packed from Netherlands.

Sicilian Round Eggplant Origin Italy: The round aubergine is a similar variety to the more traditional long, black aubergine. Far meatier, with less seeds and an incomparable flavour, we regard it in higher esteem. Grown primarily in Sicily, its shape makes for easier peeling and grilling.
